There's so much out there to be done,
if we want change the world our way
where all the wars are history, hunger
is a mystery and everybody lives in
peace
no more bombings from the air nor
suicide bombings in the square,
no more need to say beware as the
kids are free to wander ... up & down
the street; ... up & down the street.

Gen3M を自己定義

our rebuild of a tainted Earth,
now is filled with a pledged rebirth to
end the plight of the kids abused, fight
to help -the many confused;

cause some of what's religious trash,
more dangerous than a junkie's stash;
we replace it with those high ideals
that we still believe
that justice heals.
Cause justice heals.
